EDUCATION

Bina Nusantara University (BINUS)   Indonesia
Bachelor of Engineering in Computer Science (Global Class)   *2024 – 2028 (Expected)*
  - GPA: 3.77/4.00

Professional Experience

Full-stack Developer Intern (Associate Member Program)   March 2025 – Present
Bina Nusantara IT Division (Binus School Team)
  - Contributed to and maintained production-grade internal web systems used for academic scoring across the Binus School environment, supporting daily operations for teachers and educational staff.
  - Designed and implemented score entry workflows with clear status tracking (Submitted, Unsubmitted, Upcoming, Pending, In Progress), improving transparency for academic staff.
  - Built and deployed a cloud-based notification and email service for student absence handling using .NET and Azure DevOps, actively used in production.
  - Participated in Agile development cycles, including sprint planning, estimation, peer code reviews, and incremental feature delivery in a shared codebase.
  - Worked with relational data models involving complex mappings (including many-to-many relationships) and collaborated with senior engineers to diagnose and resolve data consistency issues.
  - Tech Stack: .NET, C#, LINQ, Razor Pages, JavaScript, SQL, Bootstrap, Azure DevOps

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C/C++, SQL, C#, LINQ, HTML5/CSS3

Frameworks: Next.js 14 App/Pages Router, React.js, Node.js

Libraries: TailwindCSS, Shadcn, Bootstrap

Developer Tools: Git/Version Control, Azure DevOps

Methodologies: Agile, RESTful API, Microservice
